WHEAT VARIETIES

July 9, 2010 PRESS RELEASE Internet-www.nass.usda.gov/or Email: nass-or@nass.usda.gov USDA, NASS, Oregon Field Office 1220 SW 3rd Ave., Room 1735 Portland, Oregon 97204 (503) 326-2131 or 1-800-338-2157

Oregon 2010 wheat varieties: ORCF 101 New #1

ORCF 101 (OSU Clearfield) surpassed Stephens as the leading variety for Oregon, a title Stephens had held since 1979. ORCF 101 (OSU Clearfield) accounted for 19.1 percent of the planted acreage this year. This amount is up from last year's 16.4 percent. Stephens fell to the second most planted variety with 12.1 percent, down from 19.3 percent last year. Tubbs came in third at 10.2 percent, down from last year's 13.5 percent. Fourth was Tubbs 06 at 9.8 percent, up from 6.7 percent last year. Goetze rounded out the top five with 9.5 percent, up from 2.8 percent one year ago. District level estimates were made for 39 varieties and mixtures plus a grouping of all other varieties for each class of wheat.

This report is the result of a survey conducted by the Oregon Field Office of the National Agricultural Statistics Service. Funding for the survey was provided by the Oregon Wheat Commission. This report would not be possible without the cooperation of participating farmers and ranchers.
